Geneva, 24.04.2021

Today, 24.04.2021, Distributed Production and Analysis Coordination of ATLAS experiment at CERN and Professional High School of Economics – Pernik agreed on the following:

1. Professional High School of Economics - Pernik has to create one web page, one Android application and one iOS application. The applications will be monitoring the distributed computing system of the ATLAS experiment at CERN and will display the current status and load of system. The whole process will be visualized through interactive diagrams.
2. ATLAS will provide the raw monitoring data to the Professional High School of Economics – Pernik.
3. Professional High School of Economics – Pernik will donate the mobile applications and their source code to ATLAS Distributed Computing Team after the end of the Bulgarian National Olympiad of IT 2021.
